KRITTISH BARMAN

Full Stack Developer · Cybersecurity Enthusiast · AI Workflow Builder

Krishnanagar, WB, India | bkrittish@gmail.com | +91-9749513494 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

MCA candidate (MAKAUT, 2025–2027) with hands-on expertise in full-stack React development, cybersecurity penetration testing, and AI-powered workflow automation. Experienced in building production-grade SPAs, integrating REST APIs, and automating network security tasks using Python. Currently expanding skills in LLM integration and prompt engineering to deliver smarter, faster software solutions. Strong communicator who bridges technical development with business requirements.

EDUCATION

Master of Computer Applications (MCA) *Dec 2025 – Jun 2027*
MAKAUT · B. P. Poddar Institute of Management & Technology, West Bengal

Bachelor of Computer Applications (BCA) *Sep 2022 – Jun 2025*
MAKAUT · Global College of Science and Technology (GCST), West Bengal

Higher Secondary (Class XII) *2020 – 2022*
West Bengal Council of Higher Secondary Education (WBCHSE) · Kabi Bijoylal H. S. Institute, West Bengal

TECHNICAL SKILLS

Languages	Python · JavaScript (ES6+) · HTML5 · CSS3 · Java
Frameworks	React.js · Tailwind CSS · REST APIs · Async JS
AI & LLM	Claude API · Prompt Engineering · AI Workflow Automation · LLM Integration
DevOps	Git · GitHub · VS Code · Linux · Shell Scripting
Security	Wireshark · Metasploit · Aircrack-ng · Kali Linux · Nmap
Cloud	IBM Cloud Fundamentals · Cloud Architecture Basics

EXPERIENCE

Cybersecurity Intern – System Hacking | **Webel Fujisoft Vara CoE** | Kolkata, WB *Jul 2024 – Aug 2024*

- Performed vulnerability assessments on Wi-Fi networks using Aircrack-ng and Wireshark; identified critical security gaps and documented remediation recommendations.
- Developed Python automation scripts to monitor network traffic patterns in real time, enabling proactive anomaly detection and reducing manual analysis effort.
- Executed penetration testing in sandboxed Linux environments with Metasploit and Nmap; produced structured security reports for the engineering team.

PROJECTS

Watchverse – Movie Discovery Platform · *React.js · TMDB API · Tailwind CSS · JavaScript* GitHub ↗

- Built a responsive SPA with React.js and TMDB API integration; used React Hooks for efficient state management and modular component architecture.
- Designed mobile-first UI with Tailwind CSS; optimized API calls and implemented error handling to ensure seamless cross-device experience.

Weather Tracking System · *JavaScript · REST APIs · HTML/CSS · Geolocation API* GitHub ↗

- Built real-time weather app integrating the Geolocation API and external weather REST APIs using async/await for non-blocking, error-resilient data fetching.
- Implemented dynamic DOM manipulation for instant content updates; delivered an intuitive location-based search UI with fully responsive design.

CERTIFICATIONS & TRAINING

Python Programming Workshop — IIT Kharagpur | **Python Programming Certification** — Cisco Networking Academy
Cloud Computing Fundamentals — IBM | **Diploma in Information Technology** — JNNYC

CORE COMPETENCIES

Data Structures & Algorithms · API Integration · Responsive Web Design · AI Workflow Automation · Penetration Testing · Client Communication · Requirement Analysis · Team Collaboration · Adaptability · Problem Solving
